

Proposal/Call for Papers

Advances in Management Sciences on IR 4.0 in Emerging Economies

By

Dr. Abdullahi Hassan Gorondutse

School of Business Management

Universiti Utara Malaysia

Introduction:

Journal of Advances in Management Sciences and Information System is a peer reviewed journal and currently inviting high quality submissions for its special issue that focus on research, development and application in its below mentioned areas. The journal is a Peer-Reviewed and Open Access Journal. The Journal has been granted an ISSN 2371-1647(Online)

Importance:

The use of these technologies entails transforming the way organization/ management is carried out within companies, with potential for application in several fields of activity. Contribution of the adoption of Industry 4.0 technologies for companies is like the industrial revolutions in the past; IR 4.0 will create new jobs, and will also eliminate some of the existing jobs.

It is predicted that routine activities including monitoring will be entirely or partly taken over by machines. For example, IBM Watson has developed AI-based expert system that can replace junior lawyers. AI system has also been developed, having potential to replace basic-level medical practitioners. This may mean fewer jobs for entry-level professionals in these areas, specialist jobs may remain though.

In this context, it is vitally important to impart appropriate to the future workforce. Based on the trends so far, researchers predict that IR 4.0 will necessitate profound changes in major aspects of structure/management of organization. IR 4.0 demands changes in the contents of not only technical, but also across disciplines, new emphasis will have to be given on certain skills and new contents have to be added. So, new programmes will have to be developed to meet changing

demands. Scholars and practitioners have recently emphasized the need reliability and stability needed for critical machine-to-machine communication (M2M), including very short and stable latency times Need to maintain the integrity of production processes that seeks to consider the multiple and diverse methods and values associated with them, that arise from different worldviews considering this need, this special issue was developed.

Dr. Abdulahi; requests you, to provide your manuscript on or before November 15, 2018.

Special Issue Content:

The Journal in its special issue intents to comprise of empirical and theoretical/conceptual contribution that proposes and/or employ diverse different theories, methods and instruments to extract the different results and insights associated such exploration.

The topics can include but not confined to:

- Business Strategy
- Marketing and Big Data
- Human Resource Management
- Entrepreneurship and Innovation
- Policy Modeling and Public Sector

Paper Submission and Important Dates

- Sate of Submission : November 15, 2018
- Date of accepting :December 15, 2018
- Tentative month of publication of the Special Issue: January 31, 2019

Interested authors should send an article at: ahgdutse@gmail.com

Guidelines for Authors

Accepted Manuscript File Formats

Please submit your paper in MS Word (.doc or .docx) file format according to the detailed Manuscript Preparation Guides given below. The number of pages is at the discretion of authors; on average papers are 10-20 pages long. When preparing your paper for publication, we strongly

advise that you pay particular attention to your research methods, key results and language. To ensure rapid review and publication, please adhere to these guidelines.

1. The first page of manuscript should include the following information:
 - a. Title of Manuscript
 - b. Names, addresses and email addresses of all authors
 - c. Name and complete address of the corresponding author
 - d. Abstract

Originality

Submissions must be original work, the copyright to which is not already owned elsewhere. Originality, creativity and a cross-disciplinary approach or perspectives are strongly encouraged. Significant duplication of papers and parallel submissions are not allowed and in such cases the publisher reserves the right to withdraw publishing rights from authors and co-authors of the paper for a substantial period of time. It is the authors' responsibility to check for possible copyright conflict with the copyright holder and agree to our Publication Ethics and Publication Malpractice Statement.

Language

Given that the manuscript must be written in English, if English is not the mother tongue of the author we recommend that the paper should be proofread to ensure its accuracy and improve the language quality. The publisher can also provide copy editing service on payment.

Manuscript Preparation

General: *Manuscripts must be typewritten, double spaced with wide margins on one side of white paper. The first page of manuscript should include (a) Title of Manuscript (b) Names, addresses and email addresses of all co authors (c) Name, complete address, telephone number, fax number and email address of the corresponding author (d) Abstract. An electronic copy of the paper should accompany that final version. The Editors reserve the right to adjust style to certain standards for uniformity.*

Abstracts: *Abstracts should not exceed 250 words, and should not contain full reference*

Keywords: A minimum of 5 keywords must be included on a separate line below the main abstract and labeled ‘Keywords’ to optimize searching. Avoids key words already used in the title. Avoid general and plural terms and multiple concepts (avoid, for example, 'and', 'of'). Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible. These keywords will be used for indexing purposes.

Text: Follow this order when typing manuscripts: Title, Author, Affiliations, Abstract, Keywords, Text, Acknowledgment, Appendix, References, (Vitae if required –see below) Figure Captions and the Tables. Do not import the Figures or Tables into your main text file in MS Word format. Provide a separate PDF file of your manuscript text with correct placement of figures and tables. The corresponding author should be identified with an asterisk and footnote. All other footnotes numerals. (except for table footnotes) should be identified with superscript Arabic numbers.

References: References must be listed in the numerical system (Vancouver). All references should be numbered sequentially [in square brackets] in the text and listed in the same numerical order in the reference section. The reference numbers must be finalized and the bibliography must be fully formatted before submission.

See below few examples of references listed in the correct Vancouver style:

E-citations:[Citations for articles/material published exclusively online or in open access (free-to-view), must contain the exact Web addresses (URLs) at the end of the reference(s), except those posted on an author's Web site unless editorially essential, e.g. 'Reference: Available from: URL'.

Peer Review Policy

All journals published by Lifescience Global follow the peer review system designed for each article published.

- Manuscript topics are normally approved by senior editors followed by formal peer review conducted in collaboration with editorial board members and independent referees appointed by editorial team of each journal.
- In case of theme issue on a particular topic, the appointed Guest Editor is responsible to conduct peer review and submit full review reports along with accepted manuscripts of the journal.
- Life Science Global encourages its editorial teams to use the electronic submission and peer-review system for its journals to facilitate them during peer review process.

Plagiarism Policy:

All articles are subject to plagiarism check on submission. Specialized industry approved software including **CROSS CHECK** and **PLAGIARISM CHECKER X**) are used to evaluate all submissions.
